Big John Deere tractor demonstration

John Deere Plow Company, Chamblee, Georgia, and its dealers throughout the five southeastern states will show 1957 John Deere tractors in action on Thursday, October 4, at the John Deere Training Farm, Deere Acres, Monroe, Georgia.
It is to be the biggest field demonstration of farm machinery ever held in the Southeast.
Bullock Tractor Company of Statesboro is cooperating with this giant "Farmorama" and is inviting farmers and friends to register with them to attend this demonstration.
One hundred sixty-nine tractors and 253 1957 model machines will see action on the 1,000-acre training farm in a day-long continuous exhibition. All Monroe city activities are being coordinated under the direction of Mayor Nimrod Preston and Chamber of Commerce President John R. Bell. City club and church groups are preparing to operate independent refreshment concessions to serve 60,000 hot dogs and ham sandwiches, 50,000 pies and ice cream bars and thousands of soft drinks to be consumed by the greatest number of visitors Monroe, Georgia has ever accommodated.
The giant demonstration will begin at 9:30 a. m. with a signal for the simultaneous starting of tractor outfits. The demonstration will continue until 3:30 p. m.
Valuable attendance prizes will be awarded including a registered Angus calf as a special prize for some lucky F.F.A. or 4-H Club member.

Farm electric clinic is Oct. 10

The first meeting of Bulloch County's first "Farm Electrification" clinic will be held at Nevils School Wednesday night, October 10, at 7:45 o'clock.

Approximately twenty-five farmers in the Nevils area are enrolling to make a study of their electrical problems.

At the Wednesday night meeting practical experience in running a simple circuit will be received by those present working on electrical panels, switches, boxes, wires of various sizes, outlets, receptacles, switches and other materials will be on hand. A demonstration on overloading a circuit should be an interesting part of the program.

Thursday, October 11, at 2 o'clock the group will meet at the Nevils School again. A trip will be made to the farm of Robert Cox, a member of the Nevils community, and study made of his present wiring. During this Thursday p. m. session a plan for re-wiring the farmstead will be made. Farmers taking part in the clinic should gain valuable information and experience in how to go about solving many of their electrical problems according to Gordon Hendrix, vocational agriculture teacher.

Friday, October 12 the group will assemble at the Cox farm and spend the day re-wiring the farmstead. Groups will be formed, under the leadership of an experienced electrician, and these enrolled will do the work. When the project is finished and the current is turned on Friday afternoon Mr. Cox states that he expects much safer, and economical electrical service.

Helping part of the clinic will be Mr. C. Cook, engineer, Excelsior R.E.A., L. C. Wessinger, rural engineer, Georgia Power Company, Philip A. Rowland, specialist vocational agriculture teacher, Swainsboro, Georgia, and others.

Mr. H. P. Womack, superintendent of Bulloch County, states that other farm electrification clinics may be scheduled in the future if any community is interested.

"We expect a wonderful coronation this year," Mrs. Parker said and she, together with the board, urges all who love fine entertainment to join this year.

The Statesboro Concert Association kicked off its annual drive for members a dinner at the college dining hall Monday evening of this week with F. C. Parker Jr., president, in charge.

The membership drive will close Saturday of this week with the meeting of the artist selection committee to select the attractions to be presented here during the new concert season.

The committee has already booked the Longenes Symphonette, one of the nation's top-flight orchestras. There will be at least two more attractions booked, with the possibility that there will be another one, depending on the outcome of the membership drive.

Members of the association are renewing the association's membership this week and seeking to enroll new members. The cost is \$6 for adults and \$3 for students and children. This entitles them to admission to all

the attractions to be booked for the season.

Editorials

Freedom's key to better living

When you receive your Bulloch Herald each week you read it at your leisure. You read it for the information the newspaper brings you. You read our editorials to determine what the editor is thinking. You read our columns on our editorial page for your entertainment and stimulation. You read the advertisements of our business to see what they are offering. You keep it for a week, using it as a reminder of when what organization meets and where.

But freedom of the press does not confront you at the time.

However, freedom of the press, without your deliberately thinking upon it, means that you accept the newspaper as your agent for gathering and putting out information that will be valuable to you.

Now, if you should deliberately

think upon it you learn that the freedom of the press is the First Amendment of your Constitution. It is found in your Constitution of the United States, and of the State of Georgia! For both of these great documents of yours state that no law shall be made to abridge the freedom of speech, or of the press, or of the right to assemble peaceably, or of the right to worship one's own God.

Thus the freedom of the press is an integral part of your freedom. Our free press and our free society developed together.

Because of our free press we are able to perform many functions for the promotion of our community.

And so this week we join the other 193 weekly and 29 daily newspapers in observing this week specially—National Newspaper Week.

Welcome Shriners

Monday and Tuesday of next week will be two great days for the citizens of Statesboro and Bulloch County.

The Shriners are coming to town and that means parades, bands, color, drill teams and fun for all.

The Statesboro Shrine Club with Bob Thompson as president, will play host to the Shriners Clubs in the Alee Temple which includes Brunswick, Claxton, Sylva, Swainsboro, Altamaha, Quint, Augusta, Baxley, Waynesboro, Jesup and Statesboro.

On behalf of the people of our community we say welcome to all the Shriners and their ladies and throw up our old summer hat for Bob Thompson and the members of his committee who are doing such a great job in planning for the Ceremonial.

Your pharmacist

What is a pharmacist?

He is a member of the "health team." His teammates are the family doctors, specialists, nurses and hospital administrators who work for better community health.

He is the "scientist on the corner." He is that unique storekeeper who must have a college degree in pharmacy and pass the rigid examination of the State Board of Pharmacy in order to win the honored title of "Registered Pharmacist." But he does not stop there. Through professional journals and meetings he is up to date on the latest research and developments in pharmacy and medicine.

He is the physician's colleague and trusted aide. In direct contact with drug manufacturers, he helps keep the busy physician informed on the hundreds of new prescription drugs developed each year.

He is the physician's "warehouse." He must stock every drug that may be prescribed by the doctors he serves... medicines for hay fever, arthritis, the common cold... thousands of them. Many resemble one another, but there are no substitutes. The pharmacist fills every prescription exactly as ordered.

He is a good neighbor. He

knows and likes his customers. He values their friendship and confidence in his professional skill—that skill which stands always dedicated to the well-being of his neighbors.

He is a public servant. President Eisenhower, in proclaiming National Pharmacy Week, has called attention to "the splendid services rendered by the pharmacists of America to the health of our people."

Because the pharmacist is all these things, he deserves a tribute of thanks for his devoted and indispensable service throughout the year.

Five national weeks

This week is National Newspaper Week, emphasizing Freedom's Key to Better Living."

This week is National Pharmacy Week, emphasizing "Emergencies Don't Wait."

Next week is National Fire Prevention Week, emphasizing National Employ the Physically Handicapped Week, and National Letter Writing Week.

There are others, but these five are seeking space in our newspaper this week to promote their objectives. Each has a proclamation over the signature of our president, our governor or our mayor, properly "proclaiming" each. Each has furnished us with a lot of other copy—enough to fill our paper, almost.

We're in a quandry.

We have space problems.

Of course we feel we should promote our own National Newspaper Week. But to do so, to the extent we would like, would require a lot of space. But can we do so while limiting the space to devote to the other four National Weeks? That would be selfish and unfair.

What about the promotions of the many organizations in our community coming up this week? To cut their copy would be to bring down the wrath of the various "publicity chairmen" who take time to write up their news. Oh well, we'll ride it out. Maybe we'll find a way. Newspapermen generally do, though sometimes it proves to be the wrong way.

The Editor's Uneasy Chair

WE WERE in the barbershop on Friday last week to wish Dedrick Waters a "Happy Birthday," since his and our birthday comes on the same day... though I think if the truth were known, we were just a little younger than Dedrick.

And while there we let him cut our hair as a sort of birthday present... it's getting in that state that once a year is just about as often as we really need it cut, and then just trimmed around the edges.

While waiting for Dedrick to trim our hair, Slim Waller was coming Kim Johnston's hair with a damp wash cloth after having given him a quick trim. Slim volunteered the information that he cut Kim's hair the very first time about thirty years ago. It was then that Kim revealed to us some of the most valuable information we've heard in a long, long time. However, it came too late for us. As a matter of fact Kim got it too late to help him. While in a barber shop in Claxton, years ago, he learned a complete, tried and proven method to save hair. Anyone interested in this method might call Kimball at his home at 136 North Main Street. He gave us the secret free, since it wouldn't do us any good. Only those with a full head of hair and are now being confronted with the problem of saving it could be benefited by the secret.

WE STAND CORRECTED. Bealy Smith, Statesboro boy, made good in Atlanta, writes that when we wrote from our Uneasy Chair recently that "the still re-

members Statesboro—but rather vaguely..." we were in error... What we should have written, writes Bealy, is "He still LOVES Statesboro. In fact I remember it very vividly and all the wonderful folk and friends there."

IT WAS a great day for First Methodists last Sunday as they gathered at the noon hour for an old fashioned dinner-on-the-ground meeting.

THE JAYCEES keep adding young businessmen to their club list. This week they announced the addition of Ed Abernethy, G.T.C. film library chief; Frank Simmons, Federal Land Bank big wheel; and Curt Steinberger, Rockwell Kipling. These young men are doing a great job in Statesboro.

AND THE ROTARIANS have added four new members to their club last week and this week. They are Col. Leroy Cowart, Jim Dossey, Bartow Lamb and Ralph Purcell.

JOHNNY: (To teacher, when caught in a tussle at recess—"Well, it's Willie's fault. He started it when he hit back." From Tales Out of School by Bernice McCallar.)

DAYS ARE getting shorter, and that spells trouble to many auto drivers. Even if you have eyes like a cat and can see as clearly after dusk as in the daylight—there is a limit to every-thing. Remember, twilight doubles traffic problems.

WE WERE grieving a little over the fact that we didn't know that school wouldn't be in session on that day so we could have lingered longer in bed. But we both agreed that it was one night that neither of us woke during the whole night. (This is unusual!) although we both had heard the storm warnings the night before.

In the end I was happy over my early rising. Breakfast was finished when the announcement was heard on the radio that there would be no school. It gave me a peculiar sensation. Had I really waked up? The telephone was dead so I could not call, but the school bus which had started out a few minutes earlier came back so I knew I was awake.

THE STORMY atmosphere gave me great courage. I put on my armor and cleaned my weapons and set forth to battle my husband and his study. While the winds blew outside my vengeance against dusty books and disorder in general increased.

This task takes hours because I tremble with fear as I work. Just how it happens I don't know but there is enough mail addressed to this house to require a part-time secretary to sort it and a part-time servant to haul it outside and burn it. The lord of the house doesn't have the secretary so he piles the advertisements, the book catalogues, the personal mail, and all the other together on his desk.

Meditation for This Week

By THE REV. J. W. GROOMS

THE RIGHT KIND OF LIFE—

TEXT: "As the shining light, that shineth more and more unto a perfect day."

This is the kind of life I would wish for all of us. This is the sort of path which I hope yours to be—"The path is just," or righteous. By these are meant those who are trusting Jesus, and becoming more like Jesus day by day.

The life of such, we are herein reminded, is:

1. A BRIGHT LIFE. It is set in opposition to the way of wickedness, which is darkness. The two are as unlike as day and night. Once the Christian, too, was in darkness. But now he is light in the Lord; and his is a bright, joyous, glad life. But further, it is:

2. A HELPFUL LIFE. The sun does not shine upon the sky for himself. He shows forth the glory of God, and he does, at the same time, good to men. So, if your path is to be "as the light of dawn," you will not be shining only for yourself, but for others. God will be glorified in you, and others blessed. Your cheerful radiance will shine out upon a world of sin. Yours will be gladness, light-giving life. You will be among the joy-bringers. And, then, we are taught that the Christian life is:

3. A GROWING LIFE. Just as the light of dawn shines more and more to a perfect day," so your life should grow in beauty and in splendor with the years. It should be like the path of the sun as he mounts upward to the meridian of his strength.

4. BUT AT this point the figure fails, for the sun, as we know, begins to decline again, when the zenith has been reached. But whatever may be said of his outward bodily life, the inner life of the Christian—dwelling in our community. How great his pride must be in the thing he does as he takes a barren spot and brings it to life by building there a house which some man and wife will purchase and with love and care will change into a home. A home filled with new lives, new hopes, new dreams and still another miracle of life.

I see a builder of homes as he begins his day of leadership in the construction of new dwellings in our community. How great his pride must be in the thing he does as he takes a barren spot and brings it to life by building there a house which some man and wife will purchase and with love and care will change into a home. A home filled with new lives, new hopes, new dreams and still another miracle of life.

I pray that all is well with you this week, and will continue to be so. Don't neglect to worship somewhere next Sunday.

Your Farm Bureau membership is important to community life

The Bulloch County Farm Bureau is in the midst of renewing its 1956-57 membership.

Membership acquisition, the process of renewing membership or giving support for the first time, is an important function of Farm Bureau. Even though Farm Bureau is an organization designed to promote the economic, educational, and social welfare of agriculture—there could be no Farm Bureau without membership.

The purpose of Farm Bureau's annual membership program is to give every farmer, and those interested in agriculture, an opportunity to maintain an active, and capable Farm Bureau. Of course only farmers, or those deriving a portion of their income directly from the farm—can participate in the actual determination of policies. Even non-farmers should desire that it be no other way.

Through the years Farm Bureau has proven its worth in serving the farmer. There is not a farmer that receives no benefit from Farm Bureau activities in the legislative field, and in other realms. Very few farmers today would even pretend that Farm Bureau is not vital to the welfare of agriculture.

Finance is a necessary part of the community, county, state, and national Farm Bureau units. That a \$5 annual family membership dues assures finance and operation of the community, county, state and national Farm Bureau units (each vital in Farm Bureau operations) would be surprising to perhaps labor groups, industrial groups and others.

Only you—the Farm Bureau family—and your community and county leaders can assure surpassing of the 1956 Farm Bureau membership quota. By all means give your support in your local membership acquisition program. The job will be the more easier for your membership committeemen.

Check off the fine things that the Farm Bureau has done for you. You'll find that you can't really afford not to be a member.

Do this today!

It Seems to Me...

If you would like to have a truly wonderful experience then I would like to share some special thoughts with you.

Next Monday morning, if it is one of those beautiful fall days like today, get up just a few minutes earlier than usual so that you will have some time to savor, forget about your business or your household duties and just look around you at the wonder of the world.

THIS IS MONDAY morning as I write these thoughts and this morning early I had some really fine occasions to feel glad.

First there was the awakening of the little two-week-old at our home. Just a real reminder of the miracle of a new life and significant in that here was being the proof of a Supreme Being for the one thing in life which man has never been able to duplicate is the breath of life.

Then there was the bright shining faces of the youngsters in our neighborhood as I picked them up on the way to school. Ears scrubbed, hair combed and clean to the point of impossibility, they marched their way toward school. Morally, physically and mentally clean. In these youth I could clearly see our hopes for a better tomorrow.

MEN AND WOMEN passed me on the way to their daily work. Men and women who truly happy for the labor they do is of their choice. They work freely in a free economy, knowing they will be justly paid for what they accomplish. A colored maid passes, dressed in clean white and for others God will be glorified in you, and others blessed.

3. A GROWING LIFE. Just as the light of dawn shines more and more to a perfect day," so your life should grow in beauty and in splendor with the years. It should be like the path of the sun as he mounts upward to the meridian of his strength.

I see a builder of homes as he begins his day of leadership in the construction of new dwellings in our community. How great his pride must be in the thing he does as he takes a barren spot and brings it to life by building there a house which some man and wife will purchase and with love and care will change into a home. A home filled with new lives, new hopes, new dreams and still another miracle of life.

I pray that all is well with you this week, and will continue to be so. Don't neglect to worship somewhere next Sunday.

The Rev. David Hudson conducts revival at Westgreen Methodist

By Mrs. EDNA BRANNEN

The Rev. David Hudson, pastor of the Portal Methodist Church, will be conducting a revival meeting at Westgreen Methodist Church near Douglas all this week.

He had spent two weeks with his grandparents here.

Rites held for Mrs. NeSmith

Mrs. Wiley W. NeSmith, 62, died early Wednesday morning, September 26, in the Bulloch County Hospital after a short illness. She was a lifelong resident of Bulloch County, the daughter of the late Macy Martin and Jake G. Nevis, and a member of the Statesboro Primitive Baptist Church.

"Willie Wiredhand" Says

Welcome Senator Kerr

Next week Georgia will have in her midst one of the finest orators in the land. He is Senator Robert S. Kerr of Oklahoma, a great friend of the rural electric program in the nation.

Senator Kerr will be the principal speaker at the annual members meeting of the Grady County Electric Membership Corp. of Cairo on October 12. His speech will be broadcast over a statewide radio network.

Each year the Cairo Chamber of Commerce, merchants, and Grady County E.M.C. sponsors this "R.E. Appreciation Day." It is a colorful event, on which is filled with fun and festivities.

The theme is a good one, too. It tells us all of the many fine things we enjoy today in our rural areas as a result of the wonders of low-cost electricity. The event reminds us, too, that the rural areas were ignored by the power monopolists for 50 years before the rural electric co-ops brought electricity into the farm areas of Georgia.

We welcome Senator Kerr of Oklahoma, a fine gentleman and speaker. His appearance here is sponsored by the co-ops who have been trying to bring you an abundant supply of low-cost electricity for the past twenty years. Tune in your favorite radio station on October 12 at 2:30 p. m. and hear this great orator.

Farm housing loans available

Eligible farm owners may borrow from the Farmers Home Administration to build or repair farm houses and other essential farm buildings, Marshall R. Thigpen, the agency's county supervisor serving local farm families said today.

He said the farm housing loans were made available under recent legislation. A total of \$50,000,000 has been provided for these loans.

Interest on the loans will be 4 per cent per year on the unpaid principal. Repayments will be scheduled over periods up to thirty-three years.

A housing loan will be secured by a mortgage on the borrower's farm. The agency expects applications to obtain the building plans and specifications for the improvements to be financed with the loans. To help the borrower obtain construction standards of soundness, the Farmers Home Administration

will review the plans and inspect the construction as it progresses.

The local Farmers Home Administration county committee will determine whether or not an applicant is eligible for a housing loan. To be eligible, an applicant must be the owner of a farm, be unable to obtain suitable credit for dwellings and other buildings from other lenders, and have enough income from the farm or from other sources to meet family living and farm operating expenses and repay his debts.

Further information on the loans may be obtained at the county office of the Farmers Home Administration located at 7 North College Street, Statesboro, Georgia.

Dr. Roy Gizzell, biologist with the Soil Conservation Service assisting the Ogeechee River Soil Conservation District, was in Bulloch County last week checking a few cooperators' ponds for fish management.

Ponds checked included those of Loy Waters, Buddy Barnes, and F. F. Fletcher of Statesboro, and Denver Lanier of Port of Georgia.

On the surplus situation, Mr. Preston thought it would be necessary for the support programs to pay some 75 per cent of the value and a direct subsidy be used to make this up to 100 per cent of parity. It is necessary to move these surpluses back into the world market, and this seems to be about the only way left to get rid of these excess products.

The plight of the small farmer is something to fear, Congressman Preston pointed out. He asked that the Farm Bureau be more active on this point, as well as in all phases of the farm program legislation.

E. C. Deal named a nominating committee to select a president to succeed him and the other officers. On this committee be named Henry S. Blitch, Clyde Bailey and Ernest Deal.

DR. A. B. DANIEL AT STILSON Dr. A. B. Daniel, member of the County Board of Education, asked the Stilson chapter Wednesday night to make a careful study of the proposed school bond and support it if

they could. Dr. Daniel reviewed the building program to date and the need for finishing the job started. He pointed out that it would not be fair to the children involved to not complete the program and that the work so far had not cost any extra local taxation.

Olvin Lindsey, service man for the Georgia Farm Bureau, met with the Stilson and Port of Georgia farm groups last week, and A. L. Clifton, fieldman for Blue Cross, was at Stilson. Both urged the group to make sure their applications were in hand by October 10 in Columbus.

CONGRESSMAN PRESTON AT WEST SIDE Congressman Prince H. Preston was the guest speaker at West Side on Tuesday night. He urged the group to build their Farm Bureau stronger, pointing out that this is still the best of the farm organizations and that in Mr. H. L. Wingate, the state president, they had one of the most able leaders in farm organization work.

It is necessary to move these surpluses back into the world market, and this seems to be about the only way left to get rid of these excess products.

The plight of the small farmer is something to fear, Congressman Preston pointed out. He asked that the Farm Bureau be more active on this point, as well as in all phases of the farm program legislation.

E. C. Deal named a nominating committee to select a president to succeed him and the other officers. On this committee be named Henry S. Blitch, Clyde Bailey and Ernest Deal.

DR. A. B. DANIEL AT STILSON Dr. A. B. Daniel, member of the County Board of Education, asked the Stilson chapter Wednesday night to make a careful study of the proposed school bond and support it if

they could. Dr. Daniel reviewed the building program to date and the need for finishing the job started. He pointed out that it would not be fair to the children involved to not complete the program and that the work so far had not cost any extra local taxation.

Olvin Lindsey, service man for the Georgia Farm Bureau, met with the Stilson and Port of Georgia farm groups last week, and A. L. Clifton, fieldman for Blue Cross, was at Stilson. Both urged the group to make sure their applications were in hand by October 10 in Columbus.

CONGRESSMAN PRESTON AT WEST SIDE Congressman Prince H. Preston was the guest speaker at West Side on Tuesday night. He urged the group to build their Farm Bureau stronger, pointing out that this is still the best of the farm organizations and that in Mr. H. L. Wingate, the state president, they had one of the most able leaders in farm organization work.

On the surplus situation, Mr. Preston thought it would be necessary for the support programs to pay some 75 per cent of the value and a direct subsidy be used to make this up to 100 per cent of parity.
